02.02.2017 / Invitation SASSI 017

Dear SASSI users,

Wölfel is pleased to invite you to a three day **SASSI training course** conducted in Höchberg, Germany. The training will be conducted by **Dr. Farhang Ostadan**, one of the authors of SASSI.

We will offer the course either from the **24th till the 26th of April 2017** or from the **3rd till the 5th of May 2017**. We will select the final date based on your feedback.

The training includes basic theory of SASSI2010 formulation and the analytical models used to obtain solutions in step wise manner with emphasis on SASSI application to various types of problems covering nuclear structures, tunnels and stations, offshore structures involving seismic and/or impact loading. Details of wave propagation wave fields, incoherency analysis, selection of soil profiles and cut off frequency and post processing of the results will be presented and discussed.

In addition the new features of the upcoming version of **SASSI 2015** will be presented.

This will be an excellent opportunity for training of new SASSI users and for experienced SASSI users to pose questions on SASSI modeling.

Organizational and registration

For the three-day SASSI we will charge € 950,- plus VAT.

Please send us your application until no later than 28th of February. Please use our **registration form**.

For information about the directions please check our [website](#). Frankfurt is the closest airport to Höchberg. From there best is to take an ICE train directly to Würzburg. For hotel rooms or any other organizational questions please contact directly Andrea Sommerrock (Tel.: +49 931 49708-503, E-Mail: sommerrock@woelfel.de).

We look forward to seeing you soon.
